The chart displays the percentage of respondents who believe the U.S. should take action to reduce greenhouse gas emissions, categorized by age group. The Y-axis represents the percentage from 0% to 100%. The X-axis represents the age groups: 18-29, 30-49, 50-69, and 70+. The legend indicates that the 18-29 age group is represented by the top-most blue area, followed by 30-49 (light blue), 50-69 (medium blue), and 70+ (dark blue). The chart shows that younger age groups are more likely to believe in taking action, with the 18-29 group consistently at the top of the stack.
